

How to configure the UPS uninterruptible power supply of the SIS system

Overview

Where can I buy uninterruptible power supplies?

UPS Systems plc supply a wide range of uninterruptible power supplies including those from Riello UPS and Eaton UPS as well as the UPS battery packs designed to go with them.

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supplies (UPS) are installed for mitigating risks to critical infrastructure and to protect business continuity during a power outage.

What is a ups & why is it important?

A UPS provides a temporary power source during outages and helps prevent such issues. An Uninterruptible Power Supply (UPS) is crucial for safeguarding electronic devices and systems against power outages. It provides instant backup power, preventing data loss, equipment damage, and disruptions.

Who are ups Systems plc?

As you might imagine, we here at UPS Systems plc have considerable experience when it comes to UPS (Uninterruptible Power Supply) devices. Our UPS engineers are fully OEM trained & certified and have carried out hundreds of installations over the years.
