

Huawei Serbia Battery Energy Storage Plant

Overview

Can Serbia build a solar power plant?

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total connection capacity of 1,000 MW (1,200 MW in nameplate capacity), along with battery systems for electricity storage of up to 200 MW/400 MWh. The signing will be followed by talks on financing terms.

When will solar & battery facilities be delivered in Serbia?

The solar and battery facilities shall be delivered by June 1, 2028. Government representatives were quoted earlier this year saying that construction could start already in 2024. According to the Association of Renewable Energy Sources of Serbia, the country has installed around 95 MW of solar.

How many solar panels are installed in Serbia?

According to the Association of Renewable Energy Sources of Serbia, the country has installed around 95 MW of solar. However, that figure is not exact, as there is no official registry for solar installed for self-consumption at this stage.

Will Serbia buy a part of the wind industry?

He also announced that Serbia intends to buy a part of the wind industry that has gone into private hands, in order to ensure this electricity remains in the country, instead of being exported. Adam Cortese (photo: Aleksandar Vučić/Facebook)
