

India Mumbai v retrofit solar air conditioner

Overview

Are solar air conditioners a viable solution for India's growing cooling needs?

Solar air conditioners are no longer a futuristic concept; they are a practical and sustainable solution for India's growing cooling needs. With benefits like reduced electricity bills, eco-friendliness, and reliable performance, solar ACs are the way forward.

Which is the best solar AC in India?

Our first pick on this list of the best Solar AC in India is this particular air conditioner from Godrej. The Godrej brand has been synonymous with most Indian households for decades, so you know you're getting a decent product. Coming to the specifications, the AC supports a tonnage of 1.5 tons, making it perfect for medium to larger-sized rooms.

Should you buy a solar air conditioner in India?

For Indian consumers, especially those in areas with frequent power cuts and high electricity costs, solar ACs are undoubtedly the better choice. All these models come with a 5-year warranty. If you are purchasing a solar air conditioner, it will be mandatory to install 4 solar panels along with it.

How a solar AC system works in India?

It is built so that the AC may be directly linked to a solar panel and draw electricity from it. Solar panels absorb light and then transform it to DC power. The power generated is utilized to run the conditioner. The Solar AC price in India is the most crucial element affecting a buyer's decision.
