

Is it easy to open the energy storage power station in Gothenburg Sweden

Overview

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

How will the port of Gothenburg connect more vessels to shoreside power?

The Port of Gothenburg has taken a major step towards connecting more vessels to shoreside power. A contract has now been signed with AF Bygg Väst to construct a new transformer station serving the container and car terminals – a key investment that will enable shoreside power connection at a total of seven berths by 2030.

How can Göteborg Energi meet the growing electricity demand?

To meet the increasing demand requires a rapid expansion of the electricity grid at local, regional and national levels. Göteborg Energi's investment includes, for example, two new 130 kW-receiving stations at Hisingen and a double 130 kW- transmission line. "In total this will increase capacity in Gothenburg and West Sweden by 500 MW.

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.
