

Is the Montenegro energy storage project suitable

Overview

How much solar power does Montenegro have?

Montenegro had installed solar power capacity of just 6 MW at the end of 2020. The country's solar power capacity is significantly smaller than the electrical power demand, which is currently met by the 225 MW Pljevlja thermal power plant in the north of Montenegro and two large hydropower plants, at Perućica (307 MW) and Piva (363 MW).

Why did Montenegro not issue energy permits?

Montenegro's Ministry of Economy did not plan to issue energy permits in its Energy Licensing Plan for 2019 because the country is already close to reaching its national target of 33 percent of produced energy coming from renewable energy sources (RES) in final energy consumption. The passage does not provide information on why Montenegro did not issue permits for other reasons.

Why is EPCG investing in a four-hour battery energy storage system?

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. Each system will have a power output of 30 MW and a storage capacity of 120 MWh, designed for operation at an output voltage of 35 kV.

Is the Montenegro energy storage project suitable

[Montenegro's utility EPCG invites bids for 60-MW BESS project](#)

Sep 3, 2025 · Montenegro's state-owned power utility Elektroprivreda Crne Gore (EPCG) has invited bids for the design, supply, installation and commissioning of two battery energy ...

[Montenegro utility EPCG to launch 300MWh BESS ...](#)

Dec 16, 2024 · The event where the announcement was made. Image: Energija Balkana video. EPCG, a utility and distribution network operator (DNO) in the Southeast European ...

[Montenegro utility launches 240 MWh battery storage tender](#)

Sep 4, 2025 · EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. ...

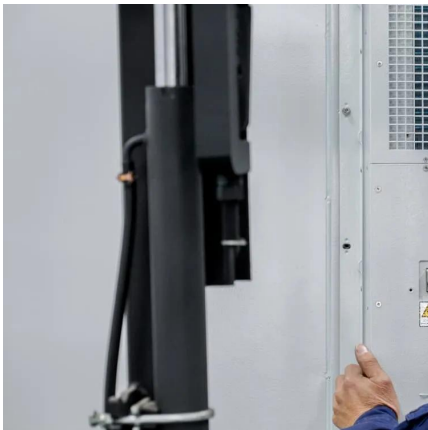

[Montenegro about energy storage systems](#)

Nov 30, 2025 · Overview The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing ...

[Montenegro's First Battery Energy Storage Systems](#)

Dec 8, 2024 · EPCG's pioneering move to install battery energy storage systems is a significant step in the modernization and stabilization of Montenegro's energy infrastructure. The project ...

[Montenegro launches second BESS tender but for drastically...](#)

3 days ago · Power utility Elektroprivreda Crne Gore has launched its second battery energy storage system procurement tender. The required capacity is drastically lower than in the first ...

[How Will Montenegro's New Battery Systems Boost Energy ...](#)

Sep 8, 2025 · EPCG's latest project aims to address these gaps, positioning battery storage as a cornerstone of grid modernization and a critical tool for achieving national sustainability ...

Montenegro launches second round of bidding for battery energy storage

14 hours ago · On December 10, 2025, Elektroprivreda Crne Gore, the state-owned power company of Montenegro, officially launched the second round of bidding for the pilot project of ...
