

# Is there any cost to use solar glass

## Overview

---

How much does solar glass cost?

The cost of solar glass will vary depending on which installer you choose, but one of the leading manufacturers is Polysolar UK. Polysolar offer an orange-tinted panel which costs around £175 per square metre and a new grey-tinted version which is more efficient and is around £250 per square metre.

Should you install solar glass in your home or garden?

Installing solar glass in either your home or garden can help to generate a significant amount of free and renewable energy for your home. This can reduce how much electricity you need to buy from a supplier which could lower your energy bills and reduce your impact on the environment in terms of carbon emissions.

What is solar glass?

Solar glass is similar to transparent solar panels as they it looks a lot like glass panes. The glass has a thin film of solar PV technology over it which can generate electricity from the sun.

What is the cost to go solar in Delaware?

In Delaware, the average all-in price to go solar is approximately \$2.58 per watt, and an average system size of 9.5 kilowatts (kW) is required to offset energy needs. Since the state doesn't charge sales tax, this price is the cost reference.
