

Ivory Coast household energy storage

Overview

Where can I find information on energy access in Ivory Coast?

Find relevant data on energy production, total primary energy supply, electricity consumption and CO2 emissions for Ivory Coast on the IEA homepage. Find relevant information for Ivory Coast on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

Will Ivory Coast build a solar power plant in Tchologo?

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.

Is Ivory Coast a good place to invest in electricity?

Boasting the third-largest electricity system in West Africa - with an installed capacity estimated at 2,907 MW and an electrification rate of 80% - Ivory Coast is well-positioned to leverage its existing electricity system to foster robust commercial opportunities for infrastructure development.

How many solar projects are there in Ivory Coast?

Ivory Coast currently has 15 solar projects totaling 650 MW currently under study or development, all slated to commence operations between 2025 and 2027. In April this year, Ivory Coast announced the start of construction of the \$63.5 million Ferke solar power plant in Sokoro, which will have an installed capacity of 52 MW.
