

Kampala solar container lithium battery processing plant

Overview

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Can EV batteries be used in stationary storage applications?

The good news is that once batteries reach the end of their first life in an EV, they can start a whole new life in stationary storage applications. Anticipating a future with tonnes of battery installations, Aceleron therefore designed a battery pack which is built with sustainability in mind.
