

Mobile Base Station Equipment Management

Overview

What is a mobile base station?

A mobile base station, also called a base transceiver station (BTS), is a fixed radio transceiver in any mobile communication network or wide area network (WAN). The base station connects mobile devices to the network and routes them to other terminals in the network or to the core network of a mobile operator. Read more [Explore Mobile base](#).

What is a baseband unit (BBU)?

This integration improves performance in mobile networks and enables some of the following advances. The baseband unit (BBU) is a crucial component in mobile base stations, handling tasks like signal processing, resource allocation, and protocol management to ensure efficient communication between mobile devices and networks.

What is an active antenna system (AAS) in a mobile base station?

[Explore Mobile base](#). Our products and. An active antenna system (AAS) in a mobile base station is a transceiver that integrates an antenna and radio frequency (RF) components in a single unit. This integration improves performance in mobile networks and enables some of the following advances.

Mobile Base Station Equipment Management

[Mobile Communication Network Base Station Deployment ...](#)

Apr 13, 2025 · This paper discusses the site optimization technology of mobile communication network, especially in the aspects of enhancing coverage and optimizing base station layout. ...

[Mobile Communication Base Stations - Compere](#)

Oct 27, 2025 · Base station construction requires the coordination of multiple resources and is hindered by difficult site selection and stringent compliance requirements, resulting in long ...

[Application of RFID in mobile base station equipment management](#)

Apr 13, 2020 · At present, China Mobile Communications Corporation is the first in China to try to introduce RFID technology into the management of its base station communication equipment ...

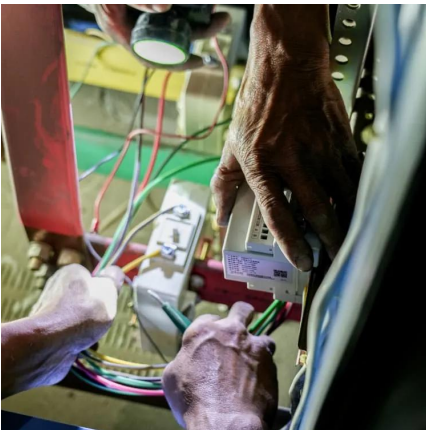

Exploring the application of radio frequency tags (RFID) in mobile base

Jan 1, 2022 · In this context, the Guangdong branch of China Mobile Communications Corporation took the lead in domestically trying to introduce RFID technology into the ...

[Application of RFID in mobile base station equipment management](#)

Mar 25, 2022 · At present, China Mobile Communications Corporation is the first to try to introduce RFID technology into the management of its base station communication equipment ...

[An Independent UAV-Based Mobile Base Station](#)

Feb 22, 2025 · We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an ...

[Design and realization of 5G mobile base station S...](#)

Feb 28, 2024 · III. Software Architecture Design
This mobile communication base station inspection report system adopts the front-end separation mode for development, the front-end ...
