

Moscow Solar Containerized Low-Pressure Type

Overview

Do solar and wind power plants produce electricity in Russia?

The volumes of electrical energy produced in the Russia by solar and wind power plants, as well as their current and prospective role in the energy balances of Russian regions are analyzed.

How many solar power plants are there in Russia?

Insolation map of Russia (Map of Insolation of Russia, 2019). At the beginning of 2020, thirteen solar power plants with a total installed capacity of more than 300 MW are already operating in this region (Solar Power Plants in the Orenburg Region, 2019).

How much does a solar power plant cost in Russia?

According to Russian suppliers for solar power plants (altecology.ru, 2019; Solar controller, 2020), the average cost of equipment for solar power plants with an installed capacity of 10 MW is 310 million rubles.
