

New Delhi Energy Storage Container Procurement 10MWh

Overview

Will India's first battery energy storage system be regulated in 2024?

New Delhi | 08 May 2024 — In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project.

What are the new energy storage schemes in India?

1. PLI Scheme for Advanced Chemistry Cells (ACC): Introduced to enable local battery manufacturing with an outlay of INR 18,100 crore. 2. National Framework for Energy Storage Systems (2023): Drafted by the Ministry of Power laying out a regulatory and financial framework for scale up of energy storage. 3.

Who commissioned India's first standalone battery energy storage system?

India's first commercial standalone battery energy storage system (BESS) project with a 20MW/40MWh capacity at the distribution company level and a tariff approved by the electricity regulatory authority has been commissioned by power sector infrastructure investment trust IndiGrid in Delhi.

What is India's Next-Gen Re & Bess & Green Hydrogen Project?

The next-gen offering that appears to be on the cusp of development is hybrid RE + BESS + green hydrogen projects. India's clean energy transition depends on the adoption of robust and flexible energy storage infrastructure. BESS tenders, supported by strong policy drivers and competitive bidding, are laying the groundwork for a future grid.

New Delhi Energy Storage Container Procurement 10MWh

IndiGrid Commissions India's First BESS Project for DISCOM in Delhi
