

New solar container battery company in Rotterdam the Netherlands

Overview

Why is SK TES launching a new battery recycling facility in Rotterdam?

The newly established Rotterdam facility signifies a significant investment in meeting the needs of the electric vehicle (EV) and battery production markets. September 9, 2024, Rotterdam, NL. – SK Tes, a global leader in battery recycling solutions, is proud to announce the opening of its state-of-the-art battery recycling facility in Rotterdam.

Why is Rotterdam launching a new battery recycling plant?

The new plant in Rotterdam is being called a significant milestone towards providing closed-loop solutions essential for the burgeoning electric vehicle (EV) industry. With the demand for battery production materials outstripping supply, it is a circular investment in the future of battery recycling.

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m² site and will be used for grid stabilization by storing excess energy from renewable sources.

What's new at the EV recycling facility in Rotterdam?

We proudly hosted the grand opening ceremony of its new state-of-the-art battery recycling facility in Rotterdam. The event marked a significant milestone in the company's commitment to advancing sustainable solutions in the electric vehicle (EV) industry.
