

North America Flow Battery Energy Storage Container

Overview

What is flow batteries North America?

Flow Batteries North America (FBNA) is the only event in North America dedicated exclusively to flow battery innovation and deployment. As the energy storage landscape evolves rapidly, flow batteries are emerging as a crucial solution for grid-scale storage, renewable integration, and sustainable energy futures.

Are flow batteries the future of energy storage?

As the energy storage landscape evolves rapidly, flow batteries are emerging as a crucial solution for grid-scale storage, renewable integration, and sustainable energy futures. Doug Scott, Chairman of Illinois Commerce Commission (ICC), will speak on energy storage in Illinois and the Midwest.

What is a VRFB energy storage system?

This next-generation energy storage system is designed to enhance large-scale energy storage with greater longevity, improved energy density and increased cost efficiency. Additionally, the VRFB improves economical effectiveness through advancements in material development and optimized system design.
