

Norway solar air conditioning manufacturer

Overview

Who is Norsun?

NorSun is a Norwegian solar energy company that manufactures and markets high performance mono-crystalline silicon ingots and wafers for the global solar energy industry. Dedicated to high efficiency n-type wafers and sustainable production with low CO2 emissions, we are an established supplier to tier-one cell manufacturers.

Where is Norsun made?

NorSun operates a modern production facility located in Årdal in western Norway, pursuing a detailed and aggressive technology development and cost road map which ensures a competitive price model. The NorSun plant is powered by low cost renewable hydropower, enabling very low emissions from production.

Where are REC Solar panels made?

Headquartered in Norway with operational headquarters in Singapore, REC also has regional hubs in North America, Europe, and Asia-Pacific. REC continuously inspires the industry with its award-winning innovations and progressions in panel technology, including mastering HJT - the solar technology of the future, already at REC today.

Does Norsun comply with the Norwegian Transparency Act?

Our work to comply with the Norwegian Transparency Act is under continuous development, and we will update information at norsun.no. If you become aware of conditions that violate basic human rights or decent working conditions related to NorSun's operations, you can notify us by sending a message to compliance@norsun.no.
