

# **Off-grid solar container 50kW genuine product guarantee and customer support**

## Overview

---

What is a 50kw off-grid Solar System?

In a 50kW off grid solar system, you will get solar panels, off-grid solar inverter, solar batteries and other solar accessories. This system is specially designed to provide long power backups during power outages or nights. Solar panels generate electricity by absorbing the sunlight in the daytime and run your connected load.

What is an off grid container & how does it work?

Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. The Off Grid Container also transports the solar PV panels and mountings, the only part of the product which has to be assembled at the customer's site.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

## Off-grid solar container 50kW genuine product guarantee and custo

### [Off grid solar container Manufacturer & Supplier in China](#)
