

Off-grid solar inverter in Osaka Japan

Overview

Why do Japan import solar inverters?

Solar inverters, essential for converting DC electricity (produced by solar panels) into usable AC electricity, are imported into Japan at a 0% duty rate. This lower tariff helps keep the cost of adopting solar energy systems affordable for businesses and consumers in Japan.

Who makes Hitachi solar inverters?

Established in 1910 and headquartered in Tokyo, Japan, Hitachi is renowned for integrating advanced technologies into renewable energy systems, making it a trusted name in solar power solutions worldwide. Key Products and Services: Hitachi offers a wide range of solar inverters, including grid-tied models with high efficiency.
