

# **Outdoor power solar container lithium battery expansion**

## Overview

---

What is a populated 20ft NWI liquid-cooling energy storage container?

\*Specification of Battery Rack The populated 20ft NWI liquid-cooling energy storage container is an integrated high energy density system, which consists of battery rack system (280Ah LFP cell), BMS (battery management system), FSS (fire suppression system), thermal management system and auxiliary distribution system.

Why should you choose polinovel energy storage battery system?

Moreover, with efficient thermal management design and fire protection system, it ensures reliable performance and the highest level of safety. Polinovel energy storage battery systems have a modular design that allows it to adapt to a variety of industrial and commercial scenarios.

What is a 20ft 2mwh battery container?

20ft 2MWh Outdoor Liquid-Cooled Li-ion Battery Container: Advanced thermal management, weatherproof design. Ideal for renewables, grid support, and peak shaving. Maximize safety & ROI. Individual pricing for large scale projects and wholesale demands is available.

What is polinovel utility scale energy storage battery system?

Polinovel utility scale energy storage battery system incorporates top-grade LiFePO<sub>4</sub> battery cells with long life, good consistency and superior charging and discharging performance. Moreover, with efficient thermal management design and fire protection system, it ensures reliable performance and the highest level of safety.
