

Outdoor power station factory in Gabon

Overview

Can Gabon become a regional energy hub?

As Gabon transitions from oil dependency to cleaner energy, gas-fired power generation will bridge the gap and support the country's shift. Key infrastructure developments, such as the Owendo plant and floating power solutions, position Gabon for long-term energy security and enhance its potential as a regional energy hub.

Who is responsible for the energy sector in Gabon?

The Ministry of Petroleum and Gas and the Ministry of Energy and Hydraulic Resources share responsibility for the energy sector. SEEG, the national electricity and water service company of Gabon, was under a concession to the French company Veolia from 1997.

What is a natural gas plant in Gabon & Wärtsilä?

Developed by Gabon Power Company in partnership with Wärtsilä under a build-own-operate-transfer IPP model, the plant will primarily utilize natural gas from Gabon's offshore fields to generate electricity, addressing both growing domestic demand and facilitating regional energy trade.

When will the Owendo gas-to-power plant start in Gabon?

The announcement that work on the long-awaited Owendo gas-to-power plant will officially begin in June, alongside VAALCO's expansion of production capabilities in Gabon and the successful commissioning of Karpower's floating power plants, underscores the country's commitment to gas as a cornerstone for its industrialization and energy transition.
