

Philippine Off-Grid Solar Container 30kW Procurement Contract

Overview

What is philgeps - Philippine government electronic procurement system?

PhilGEPS - Philippine Government Electronic Procurement System.
Procurement Project - refers to a specific or identified procurement covering goods, infrastructure project or consulting services.

Where will Hybrid microgrids be built in the Philippines?

A consortium of three companies will build the hybrid microgrids in three off-grid areas of the country. A remote area in the Philippine province of Palawan. (Source: Sean Hsu / Shutterstock.com) Nearly 4 million Filipino households are either unserved or underserved by the nation's power grid.

Is the Philippines achieving its goal of fully electrifying homes?

However, the country has just taken a big step in achieving its goal of fully electrifying those homes. After concluding its first round of a competitive selection process, the Philippine Department of Energy (DOE) recently named the Maharlika Consortium a microgrid systems service provider.

Will there be a second round of bidding in the Philippines?

A second round of bidding is expected to be held within the next twelve months. Considering the physical landscape of the Philippines, which is an archipelago made up of 7,461 islands, it's perhaps not surprising that remote communities lack access to the grid and reliable electricity.
