

# **Portugal Porto single 24v solar container lithium battery production**

## Overview

---

Will China build a lithium-ion battery factory in Portugal?

Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The factory with an annual capacity of 15 gigawatt-hours is intended to start production in 2028. According CALB, the investment amounts to two billion euros.

Will CALB make EV batteries in Portugal?

The company will build cells and ready-to-install packs there. According to Reuters, CALB wants to produce lithium batteries in Portugal with a total annual capacity of 15 gigawatt hours, corresponding to around 187,000 batteries for electric vehicles per year. The batteries will be manufactured “mainly [for EVs] in the European market.”.

Should Portugal produce battery-grade Li-compounds?

Therefore, the production of battery-grade Li-compounds in Portugal would aid the EU in lessening its dependence on external sources for this strategic metal, assisting as well in increasing the domestic supply of raw materials for battery manufacturing. Portugal has been the sole European lithium producer since 2011 (USGS 2024).

How much lithium does Portugal have?

Portugal has noteworthy lithium (Li) resources (306 thousand tonnes – kt) that should be suitably assessed to realistically support an expected expansion of known reserves (ca. 53 kt Li), as reported in several studies (e.g. Dinis and Horgan 2018; Filipe et al. 2010).
