

# Price Comparison of 1MWh Mobile Energy Storage Containers

## Overview

---

What is a 1MWh energy storage system?

The 1MWh Energy Storage System consists of a Battery Pack, a Battery Management System (BMS), and an AC Power Conversion System (PCS). We can tailor-make a peak shaving system in any Kilowatt range above 250 kW per module. For applications over 1MW these units can be paralleled. Features: Features of the Battery Management System (BMS):.

How much does a 1MWh battery energy storage system cost?

For a 1MWh battery energy storage system, Energetech Solar offers a system with a price of \$438,000 per unit for a 500V - 800V system designed for peak shaving applications. There are also quantity discounts available, with the price dropping to \$434,350 for purchases of 3 - 9 units and to \$431,000 for purchases of 10 or more units.

How can a 1 MWh energy storage system be expanded?

With a 1 MWh energy storage system as a unit, it has wide applicability and can expand capacity by combining multiple units in parallel, which has a good competitive advantage and can also be connected to new energy sources or connected to the grid as a distributed power source of smart grid.

How much does a solar energy storage system cost?

PVMars lists the costs of 1mwh-3mwh energy storage system (ESS) with solar here (lithium battery design). The price unit is each watt/hour, total price is calculated as:  $0.2 \text{ US\$} * 2000,000 \text{ Wh} = 400,000 \text{ US\$}$ . When solar modules are added, what are the costs and plans for the entire energy storage system?
