

Riga BESS sells brand new uninterruptible power supply recommendation

Overview

How will Latvenergo improve the security of supply?

The innovations and infrastructure of Latvenergo will not only strengthen the security of supply but also the development of the Baltic region.” BESS, or Battery Energy Storage System, is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

Why did we build a Bess for Latvenergo?

Therefore, in the generation portfolio of Latvenergo, alongside hydro power plants (installed capacity ~1550 MW), combined heat and power plants (~1050 MW) and solar and wind capacities under development, we planned to build a BESS which will ensure synergy with the generation and sales portfolio of Latvenergo.

Where are Bess projects being implemented?

The first BESS projects are being implemented in Latvia and at Latvenergo production sites – starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and continuing with larger storage solutions, including at Riga HPP and Latvenergo AS CHPP-2. The procurement and selection of suppliers for the latter projects is currently in progress.

What is Bess & how does it work?

From a sales perspective, BESS can be bundled with photovoltaic panels or integrated into smart homes or home EV charging systems. Tailored products will help residential customers achieve goals such as self-sufficiency, optimized self-consumption, and lower peak power consumption—and they may mean higher margins in this sector.

Riga BESS sells brand new uninterruptible power supply recommen

[Riga BESS Uninterruptible Power Supply](#)

Nov 5, 2025 · Courtesy: Affiliated Engineers Inc. Uninterruptible power supply (UPS) systems have been a familiar presence for years, known for their ability to enhance power quality and ...

[Enabling renewable energy with battery energy storage ...](#)

Aug 2, 2023 · Several telecommunication players and data center owners are already switching to BESS as their uninterruptible power supply solution and for the additional benefits BESS ...

[Latvia's largest battery energy storage system unveiled](#)

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

[Latvenergo invests heavily in battery systems, plans to ...](#)

Feb 18, 2025 · A growing demand in the energy market for battery energy storage system (BESS) technologies is developing currently, and the trend is expected to remain stable in the future.

...

[Latvenergo invests in plans to become the Baltic market ...](#)

Feb 21, 2025 · Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of battery energy storage systems (BESS), ...

Top Riga Large UPS Uninterruptible Power Supply Recommendations ...

Discover the most reliable large UPS systems for industrial, commercial, and critical infrastructure needs in Riga. Learn how to choose the right solution with real-world examples and expert ...

[Latvia BESS sells new uninterruptible power supply price](#)

Nov 24, 2025 · On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW ...
