

Rome Outdoor Solar Electricity System

Overview

Where is Aeroporti di Roma's new solar farm located?

Aeroporti di Roma (ADR) today inaugurated its new solar farm, which instantly becomes one of the largest photovoltaic systems in the world within an airport perimeter. The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport.

Where is the solar farm located in Rome Fiumicino?

The solar farm is located along the eastern side of Runway 3 at Rome Fiumicino Airport. The new infrastructure was designed by ADR and built by Enel in collaboration with Circet, following a European public tender after which the integrated contract was assigned.

Why is Aeroporti di Roma launching a solar farm at Fiumicino Airport?

“Aeroporti di Roma’s solar farm at Fiumicino airport represents an important milestone, especially considering the urgent further development in terms of capacity – for an infrastructure committed to energy efficiency and environmental sustainability.

How much solar power will the airport have in the next 5 years?

According to ADR, this launch represents a first, significant step towards the airport reaching an installed power of 60 Mwp in the next 5 years, with the installation of additional solar farms within the perimeter of the current area.
