

# Senegal Solar Energy Storage Container 60kW

## Overview

---

Is a solar energy project in Senegal the biggest in West Africa?

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, Procurement and Construction) contract for its development was recently signed. The Kolda project will encompass a 60MWp PV solar plant coupled with a 90MWh storage system.

When will a solar power plant be built in Senegal?

“This agreement paves the way for the construction to begin in May 2025, with the deployment of a 60MWp photovoltaic plant coupled with a 90MWh storage system.” Voltalia is to supply the PV infrastructure for the solar power plant, which will operate on Senegal’s national grid managed by SENELEC.

How much money does axian Energy Invest in Senegal?

The project will provide clean, reliable energy for 235,000 people in Senegal. West Africa, accelerating the uptake of critical battery technology in the region. by 2030. systems operated by AXIAN Energy in the southern Senegalese region of Kolda. The country. The overall investment volume is over EUR 105 million, of which, EUR 84 million of DEG.

What is the largest photovoltaic plant in West Africa?

Scheduled for completion in 2026, the Kolda solar farm project stands out as the largest photovoltaic plant with BESS project in West Africa. This ambitious project will set a benchmark for the region by combining large-scale solar energy production with cutting-edge battery storage technology.
