

Serbia lithium iron phosphate portable energy storage solution

Overview

What is the first lithium phosphate battery factory in Europe?

It is the first lithium iron phosphate (LFP) battery cell factory in Europe, it added. In Serbia's northernmost city of Subotica, a project is underway for a battery gigafactory with an annual capacity of 8 GWh, set for launch in 2026, while 40 GWh is planned to be added by end-2027.

Could Serbia be a technological leader in LFP battery production?

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass-produce this type of battery. The signed Memorandum with the European Union envisages a serious focus on the ecosystem of electric vehicles and battery production.

Where are LFP batteries made in Serbia?

Serbian battery developer ElevenEs is finalising a project for the construction of a mega factory that will produce Lithium Iron Phosphate (LFP) batteries in the country's northern city of Subotica, CEO Nemanja Mikac told SeeNews.

Is there a battery Gigafactory in Serbia?

In Serbia's northernmost city of Subotica, a project is underway for a battery gigafactory with an annual capacity of 8 GWh, set for launch in 2026, while 40 GWh is planned to be added by end-2027. The developer, ElevenEs, has just finished the cell manufacturing facility, as scheduled.

Serbia lithium iron phosphate portable energy storage solution

[ElevenEs completes Europe's first LFP battery cell factory](#)

Apr 27, 2023 · Battery storage startup ElevenEs said its manufacturing facility in Serbia is fully operational. It is the first lithium iron phosphate (LFP) battery cell factory in Europe, it added.

[Founder and CEO of ElevenEs: Powering Serbia's](#)

Jul 28, 2024 · Originating as a development project of the multinational "Al Pack," which focuses on aluminum processing for packaging, ElevenEs has now become a significant player in the ...

[Europe's first LFP battery factory is unveiled . Energy Magazine](#)

Apr 24, 2023 · ElevenEs, a trailblazer in Lithium Iron Phosphate (LFP) cathode battery technology, has launched Europe's first industrial plant dedicated to producing LFP battery ...

[ElevenEs opens Europe's first LFP battery cell facility](#)

Apr 25, 2023 · ElevenEs opens Europe's first LFP battery cell facility to supercharge electric vehicle production ElevenEs opens Europe's first LFP battery cell facility to supercharge ...

[How we became the first battery factory in Europe and what ...](#)

ElevenEs is the first lithium-iron-phosphate battery factory in Europe? What is its importance for Serbia? The importance of "ElevenEs" is reflected in the fact that we managed to create our ...

[EIT InnoEnergy Backs Serbian Battery Dev ElevenEs' 16 GWh ...](#)

Oct 22, 2021 · EIT InnoEnergy, a European early-stage investor in clean technologies, said on Thursday that it has invested in Serbian battery developer ElevenEs to support its plans to ...

EIT InnoEnergy set to invest in ElevenEs's lithium battery plant in Serbia

Sep 9, 2025 · Initial annual capacity will be 300 MWh of LFP cells Construction of larger 8 GWh capacity plant to start in 2024 Serbia's ElevenEs has signed agreements with Netherlands ...
