

# **Singapore telecommunications operators install 5g base stations**

## Overview

---

Is Singtel a 5G telco in Singapore?

Enables wider, deeper coverage islandwide for all 5G customers Singapore, 07 February 2025 – Singtel today announced that it is the first telco in Singapore to deploy 700 MHz spectrum, further boosting its 5G coverage nationwide.

Does Singtel offer 5G?

Yeow Lian noted that Singtel currently offers nationwide 5G Standalone (5G SA) services with a network of more than 1,500 5G mobile base stations across Singapore. “Singtel has always invested ahead in technology and infrastructure so we have the necessary tools, products and solutions to support the nation’s ambitions.

How many maritime 5G base stations are there in Singapore?

MPA said five Maritime 5G base stations have been installed and operationalised as of 2024. Up to seven more base stations will be operationalised by 2025 to complete Maritime 5G coverage in all Singapore port’s major fairways, anchorages, terminals and boarding grounds.

Is Singapore fully embracing 5G standalone (SA) networks?

Singapore has taken a significant step forward in mobile connectivity by fully embracing 5G Standalone (SA) networks, according to a new insight from Opensignal.
