

Small mobile power box for construction sites

Overview

Can ETEC Powerbox be used on construction sites?

Optionally, the ETEC Powerbox can be equipped with an integrated DC fast charger with a charging capacity of up to 200 kW charging power allowing electric machines to be recharged at lightning speed. The ETEC Powerbox excels in versatility, reliability, and sustainability. It offers much more than just power on construction sites.

What are the advantages of a powerbox?

Another unique advantage: the Powerbox can serve as an energy buffer. This means that even with a small grid connection, you can charge high power levels, eliminating the need for large grid connections. As a result, fully electric equipment can be deployed even in remote or grid-constrained locations.

What is a PowerBox and how does it work?

With its optional integrated DC fast charger of up to 200 kW, the Powerbox enables ultra-fast charging. This makes it fully prepared for the energy demands of tomorrow: powerful, future-proof, and completely emission-free. The Powerbox can also be combined with a generator, creating a hybrid energy configuration.
