What does a solar inverter do?

Inverters. The inverter is a critical part of any solar electric system that needs to power any AC (Alternating Current) loads. AC power is the type of electricity that the electric utility grid provides homes and businesses. So AC loads would include anything plugged into a typical household outlet.

What is a small power inverter?

Small Inverters. Our Small Inverter category includes inverters generally ranging from 125 watts to 2000 watts in 12 and 24-volt capacities. These small power inverters are great for smaller applications like boats, RVs, or other relatively smaller systems. In addition to the size, choosing an inverter with the right wave form is also important.
