

Smart battery cabinet customized integrated system

Overview

What is a self-designed battery management system (BMS)?

Self-designed Battery Management System (BMS) protects the cell from extreme temperatures. Modular, sleek design allows neat stacking inside the AZE company solar equipment enclosures. Compatible with most of there hybrid inverters available on the market.

What is a Bess battery?

The small BESS series is a fully integrated battery energy storage system that's built to last. The Series is both scalable and engineered for modularity with a low MTTR, making it ideal for medium renewable energy projects. It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
