

Solar 7W water pump

Overview

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

Can solar power power a 7.5 hp water pump?

As suggested by its name, direct solar power can be used to power a 7.5 HP DC surface solar pump. Water can be easily lifted by using the electricity generated by the solar panels to run the motor of a DC pump. The DC surface water pump's detailed specifications are listed below. 67500 - 1, 50,000 liters per day.

What is a 7.5 hp solar pump?

The 7.5 HP on-grid solar pump is also known as grid-tied (government electricity) solar pump. On grid solar pumps can be powered by solar power generated by solar panels as well as government electricity. It is a reliable solar water pump and you can avoid the cost of running a diesel generator on a daily basis.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
