

Solar Water Pumping System in Chiang Mai Thailand

Overview

Who is Chiang Mai solar?

the only local manufacture of solar panels! Chiang Mai Solar designs and installs solar-related systems such as Solar Electric Systems, Solar Water Heating, Solar Pool Heating and many more. Utilizing solar energy through Solar cells or a dedicated solar power receiver. To help save money in the long term and environmental friendly.

Does Chiang Mai solar repair equipment?

Chiang Mai Solar has the ability to repair equipment or defective materials in each model, which requires experience in the equipment. Under the supervision of knowledgeable engineers, to correct the on-the-spot and get the system back to work perfectly.

Why should you choose Chiang Mai solar?

Knowledge of SOLAX Technology Battery products is another advantage of Chiang Mai Solar. We can provide accurate information for customers. It also introduces the product range for efficient energy storage and trouble-free later installation. overall amount of electricity of the house.

How does a solar water pump work?

A solar water pump system works as follows: Solar panels generate electricity from solar energy, which powers the water pump. The pump then transfers water from a water source to the desired location. A controller manages the electrical system and power to the pump.
