

# Solar container battery label square

## Overview

---

What is a battery storage label kit?

Made with high-quality materials and proudly manufactured in Australia, this label kit helps ensure safe, efficient operation of your battery storage system. Perfect for ensuring compliance, safety, and reliability in your battery storage and solar power systems.

Why are PV and battery labels required?

PV and battery labels are required to meet certain standards in order to be durable for the entire life of the system. The requirements listed in 2.1.2 ensure that the labels used meet the compliance requirements for the specific system type. NOTE – The following is an amalgamation of the requirements across the standards.

Is my battery storage system compliant with AS/NZS 5033/2021?

Ensure your battery storage system is clearly marked and compliant with AS/NZS 5033:2021 using our Battery Storage System Solar Label Kit. Designed to meet Australian and New Zealand safety standards, this kit provides essential labels for battery storage units, inverters, isolators, and other critical components in photovoltaic energy systems.

Why should you buy a 3m battery storage label kit?

Featuring genuine 3M adhesive backing, the labels offer strong adhesion and long-lasting durability, even in harsh outdoor conditions. Made with high-quality materials and proudly manufactured in Australia, this label kit helps ensure safe, efficient operation of your battery storage system.
