

Solar energy storage installation in Hanoi

Overview

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.

Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Can a Honeywell energy storage system be integrated into a solar farm?

First announced at the annual U.S.-Vietnam Energy Security Dialogue, the project plans to use a Honeywell energy storage system integrated into a 50-MWp solar farm operated by AMI Khanh Hoa. AMI AC Renewables is a joint venture between ACEN and AMI Renewables.

How much solar power does Vietnam have?

Vietnam's Eighth National Power Development Plan, published in 2023, also acknowledges that the country's solar potential is an estimated 963GW of capacity, and the government has since made moves to provide offtake tariffs and better enable onsite self-consumption.
