

Solar farm water pump

Overview

Can a solar water pump be used on a farm?

As long as you have a water source, you can pump it. Get the perfect solar powered water pump system for your NZ farm needs by having it custom-designed. Optimise functionality with a solution specifically built around your requirements. Able Solar offers solar panel installations for farms throughout New Zealand.

What is a solar well pump?

Solar well pumps are commonly used to clean water in wells, rivers and ponds. Moreover, the solar water pump is energy-saving, environmentally friendly and saves money. Welcome to be a distributor of solar well pumps manufacturer, we can also provide OEM service for customers.

How do I choose a solar water pump?

Water Pump Need: You may choose solar water pumps based on your needs. For example, if you need water pumps, particularly for household use, you may go with borewell submersible pumps or consult any pump dealer.

Maximum Head: The maximum head of a pump refers to the greatest depth or gap from which you may pull water.
