

Solar lights for shopping mall lighting

Overview

What is shopping mall lighting?

Shopping mall lighting is considered one of the most mature and rapid areas of LED applications. The shopping mall is not only a place to buy goods, but also to create an environment suitable for leisure. The shopping mall lighting effect is indeed indispensable, and the LED lighting has a strong advantage in expressiveness.

Are commercial outdoor solar lights a good choice?

Get off to a bright start with commercial outdoor solar lights from Greenshine
When it comes to outdoor commercial solar lights, solar LED lights are your #1 option. Commercial outdoor solar street lights are a perfect combination of environmentally friendly, green technology paired with energy-efficient LED fixtures for maximum cost-effectiveness.

How does a commercial outdoor light work?

Sensors in the electrical components of the light determine when the sun has dropped below the horizon. This tells the electrical management system to change the flow of energy from the battery to the light fixture. Be sure to read our commercial outdoor lighting guide for more information.
