

Solar-powered containerized single-phase power supply for drilling sites

Overview

What is a solar energy container?

With its transportable convenience and environmental efficiency, it stands at the forefront of renewable energy solutions. Introduce power to any location with our Solar Energy Container. It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized container for global mobility.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is a self-storing solar power system?

This process allows us to provide solar power solutions with quick turnaround and short lead times from inception to installation. This collapsible, self-storing systems was a collaborative effort between our engineering design team and engineers from one of our oil services customers. Self-storing solar power systems ready for transport.

What is a 45ft solar energy container?

Discover renewable energy innovation with our 45ft Solar Energy Container, a mobile powerhouse designed to bring sustainable power wherever it's needed. With its transportable convenience and environmental efficiency, it stands at the forefront of renewable energy solutions. Introduce power to any location with our Solar Energy Container.
