

Sophia New Energy solar Panel Company

Overview

How will Sophia impact the solar industry?

panels in the long term, an eco-designed and easy dismantling solar panel will be developed as prototype. It is expected that in the ecodesign practise fully sustainable PV industry. Additionally, SOPHIA will contribute to the generation of new markets around the photovoltaic sector across Europe.

What is Sophia & how does it work?

SOPHIA is an EU-funded Horizon Europe project that aims to implement Advanced Digital Solutions in end-of-life solar panels, involving the entire value chain to increase their current reuse, repair, and recycling rates.

What is Sophia Project?

New developments and trends in plastics recyclin. The SOPHIA project aims to increase the current reuse, repair and recycling rates of end-of-life solar panels.

Who coordinates the Sophia project – implementation of Advanced Digital Solutions?

In this context, AIMPLAS, the Plastics Technology Centre, coordinates the SOPHIA project – Implementation of Advanced Digital Solutions to increase the circularity of PV panels throughout the entire value chain.

Sophia New Energy solar Panel Company

SOPHIA: Advanced Digital Solutions to Increase the Circularity of PV Panels

Mar 7, 2025 · With the rapid rollout of solar energy, which is at the forefront of efforts to reduce carbon emissions, there is a growing need for solutions to increase the circularity of PV ...

[Top 13 largest Chinese Solar Companies 2025](#)

Jul 1, 2025 · Top 13 largest Chinese Companies in the Solar industry by Market Cap This is the list of the largest public listed companies in the Solar industry from China by market ...

[SOPHIA project: increasing the reuse, repair and recycling ...](#)

Jul 10, 2025 · Renewable sources of energy are increasingly important in the switch to zero carbon but converting solar energy to usable electricity takes equipment, which in turn requires ...

[Implementation of Advanced Digital Solutions to increase ...](#)

Nov 26, 2025 · "SOPHIA addresses to the problem of photovoltaic panels End of Life, their management and the society awareness on electronicwaste management. The project will ...

[Enhancing PV Panel Circularity: AIMPLAS Coordinates SOPHIA](#)

Jul 6, 2025 · The SOPHIA project aims to increase the current reuse, repair and recycling rates of end-of-life solar panels. For the evaluation of their State-of-Health (SoH), a prototype will be ...

[SOPHIA and the future of solar panel recycling in Europe](#)

Jul 25, 2025 · In recent years, the growth of solar energy in Europe has brought with it the challenge of how to manage the solar panels at the end of their useful life Ensuring the ...

[SOPHIA: New EU project to implement Advanced Digital...](#)

Jun 30, 2025 · With the rapid rollout of solar energy, which is at the forefront of efforts to reduce carbon emissions, there is a growing need for solutions to increase the circularity of PV ...
