

Tehran Communications 5g base station ranking

Overview

How many 5G base stations will there be in 2024?

Regulator predicts that the number 5G base stations will increase to 1,200 by March 2024 and to about 4,000 by March 2025. Report update includes telcos' operating data to Q3 2023, updated Telecom Maturity Index charts and analyses, assessment of the global impact of the pandemic on the telecoms sector, recent market developments.

What is the global 5G base station market report?

The global 5G Base Station market report is a comprehensive analysis of the industry, market, and key players. The report has covered the market by demand and supply-side by segments. The global 5G Base Station report also provides trends by market segments, technology, and investment with a competitive landscape.

How tight is the 5G base station market?

Component tightness remains a near-term ceiling on the 5G base station market until fresh foundry capacity and material supplies normalize. Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services.

Is Iran a good place to invest in 5G?

There has also been investment in 5G, though the development of this sector has been hampered by the paucity of available spectrum. To address this, the government planned imminently to release spectrum in the 3.7-3.8GHz range for 5G. From a broad perspective, Iran offers significant opportunities for growth in the telecoms sector.
