

The cost of purchasing a container generator in Italy

Overview

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers:
The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable, such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type, noise attenuation, and space-saving layout.

How many generators can be used as power plant?

In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'. Depending on the intended use, the container gensets can be equipped with following options:
