

# **Three major wind solar and energy storage equipment companies**

## Overview

---

Do energy storage systems work with solar and wind?

In the growing world of energy storage, there are some companies whose individual stars have risen to the top; some of them have found creative and scalable storage systems to work in conjunction with solar and wind.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

What types of storage systems does Siemens Energy offer?

Siemens Energy's portfolio encompasses mechanical storage systems, including Compressed Air Energy Storage (CAES) and Liquid Air Energy Storage (LAES). The company also offers chemical storage solutions, including those for hydrogen and fuel cells, such as maritime fuel cell systems.

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

## Three major wind solar and energy storage equipment companies
