

Tie tie for outdoor base station

Overview

What is a cable tie mounting base?

This cable tie mounting base is made of nylon to withstand harsh environmental conditions. 3M™ Cable Tie Mounting Base offers a flexible mounting alternative to meet a variety of applications. This mounting base is ideal for use with miniature, intermediate and standard cable ties.

What is a 3m cable ties mounting base?

Mounting bases are ideal for use with miniature, intermediate and standard cable ties and are designed to keep your wire or cable bundles organized in narrow spaces. 3M™ Cable Tie Mounting Bases are available in UV weather-resistant black for indoor and outdoor use, and natural or beige for indoor use.

What is a sticky cable tie mount used for?

The sticky cable tie mounts can be widely used for wire management clips and electronic cord organizers. The cable tie mounting base for cable ties is a very good solution for securing cables to the back of televisions and home theatre equipment, running cabling along the wall, running cabling along the roof (indoors), and under desks and tables.

What is a cable tie holder?

The cable tie holders (also called nylon cable tie mounts) are made of high-quality nylon material, which is lightweight and anti-aging. The color of the nylon cable tie mounts can be black or white. The zip tie cable mounts can be easily concealed for a neat appearance.
