

Total investment in Myanmar energy storage power station

Overview

Who manages Myanmar's energy sector?

Myanmar's energy sector is managed by the Ministry of Electric Power (MOEP) and the Ministry of Energy (MOE), which together account for over one-third of public sector revenue. Before May 2022, the two ministries operated under one single Ministry of Electricity and Energy (MOEE).

How can Myanmar improve its power system?

Rebuilding Myanmar's power system will require establishing trust to develop the power sector. Developing solar PV can add incremental generating capacity in a relatively fast manner.

What is happening in Myanmar's power sector?

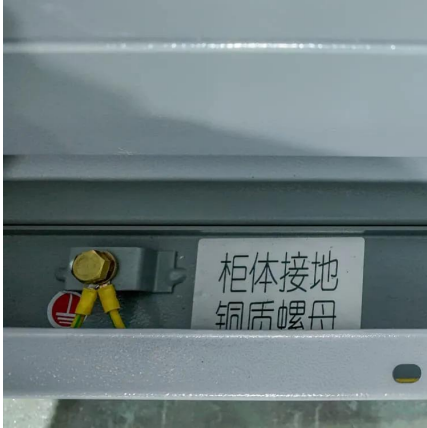

Myanmar's power sector has been severely affected by the ongoing political turmoil. The power sector has been spiralling downward since 2021 with prolonged electricity blackouts throughout the country. Electricity generation has been declining, resulting in a widening power supply-demand gap.

What happened to power plants in Myanmar?

For these cases, transmission lines or substations connecting those power plants were damaged, gas pipelines to those plants were destroyed, or power plants themselves were temporarily occupied by the resistance force.
