

Ukrainian energy storage equipment subsidies

Overview

Why is Ukraine donating specialised energy equipment?

Since March 2022, it has been coordinating donations of specialised energy equipment to repair Ukraine's energy infrastructure at the Government of Ukraine's request. Ukraine was exporting electricity to the rest of Europe until exports were suspended on 12 October 2022 due to the damage to critical infrastructure.

Can a subsidization system take Ukraine out of energy poverty?

However, experts believe that the existing subsidization system is incapable of taking them out of energy poverty. Ukraine is not the only country in the world where citizens receive monetary assistance to pay for housing maintenance and utility services.
