

Uzbekistan solar container communication station inverter site bidding

Overview

What is a large-scale solar PV project in Uzbekistan?

Large-scale solar PV projects have been subject to competitive bidding processes in Uzbekistan since 2019 and an awarded project can sign a long-term contract with NEGU at a fixed tariff, as noted above. The government of Uzbekistan also aims to develop small- and medium-scale solar projects.

Will Uzbekistan deploy 900 MW of solar by 2021?

The procurement exercise is the first of two solar tenders for 900 MW that Uzbekistan's Ministry of Energy announced in August 2021. The country aims to deploy 8 GW of solar by 2030. According to the International Renewable Energy Agency (IRENA), the country had only installed 104 MW of solar by the end of 2021.

Who won Uzbekistan's solar tender?

Uzbekistan's Ministry of Energy has revealed the winners of a solar tender that was launched in September. The procurement exercise involved three solar projects totaling 500 MW in the Namangan, Bukhara, and Khorezm regions. Abu Dhabi-based developer Masdar secured the project in the Bukhara region with a bid of \$0.03044/kWh.

Does Uzbekistan need a solar energy roadmap?

The government of Uzbekistan needs to periodically monitor its progress toward a solar energy future and to review policies and actions where appropriate. This roadmap provides a timeline through 2030 with key actions.
