

Which companies are there in Cape Town for wind and solar complementary solar container communication stations

Overview

Is South Africa a good place to invest in solar power?

South Africa is home to a vast portfolio of solar projects (Credit: Treetops) Cape Town has set an ambitious goal of having renewable power account for 20% of its energy mix by 2020, which a number of companies will likely prove instrumental in achieving.

What does a solar company do?

These companies are committed to providing sustainable and environmentally friendly energy solutions to homes, businesses, and the community. They offer a range of products and services, including solar panels, wind turbines, energy audits, and installation and maintenance services.

Can Cape Town make clean power the norm?

“Cape Town has abundant wind and solar photovoltaic resources, but we need to overcome regulatory and political barriers to raise our numbers significantly.” But working in its favour are firms such as GreenCape and Juwi, which aim to make clean power the norm – here we take a closer look at how they are planning on doing that.
