

Yemen Mobile Power Station Trailer Generator

Overview

What is a GE TM2500 generator?

GE's TM2500 is derived from jet-engine technology powering the world's airlines, and it was developed to deliver fast-track and mobile power. The TM2500 is a mobile, gas generator packaged on a three-trailer system with a top-mounted air inlet filter and exhaust assemblies.

How will TM2500 work in Yemen?

Once interconnected to the local grid, over half of the electricity produced from the unit at Block 14 will be delivered to the grid, providing electricity needed to power homes in Yemen that currently suffer blackouts. The TM2500 unit is expected to achieve commercial operation in 2023.

How many mw can a GE TM2500 aeroderivative gas turbine provide?

The order includes a trailer-mounted GE TM2500 aeroderivative gas turbine. The TM2500 unit will be installed at Block 14 in the Hadramout region and will be capable of providing up to 34 megawatts (MW) at the site's conditions.

How does PetroMasila support the Yemeni economy?

"PetroMasila is committed to supporting the Yemeni economy by efficiently developing the country's hydrocarbon resources, and also by taking steps to secure reliable power for the people living in the regions where we operate," said Mohammed Bin Sumait, General Manager of PetroMasila.
